Skylotec semi-static rope R-064-WE 10,5mm

Product information

The rope is designed for heavy loads when working at heights as well as for rescue and winch operations. Expansion and sheath slip are low. The abrasion resistance of the sheath, on the other hand, is so high that it is even suitable for climbing clamps. At the same time, the rope is also flexible enough to be used for rescue operations with long abseiling distances.

Rope type: Semi-Static.
Static elongation: 4,4%
Hand Washing: 40 °C
