Shortening clutch with locking Green Pin® UGCV

Product information

The Green Pin® Shortening Clutch with Lock is a grade 10 shortening clutch with locking pin. The shortening clutch is an essential part of chain slings, used to shorten the length of a chain leg and prevents instability of the load. The clutch compared to the shortening hook makes a straight pull possible. This shortening clutch is available with a locking system, designed to prevent accidental disengagement of the chain. The Green Pin® Shortening Clutch with Lock is available in a range to suit 6 mm up to 20 mm grade 10 chain.

Certification on request: 2.1, 2.2, 3.1, MTCa, MPIb

... *Read more*

Material: alloy steel, quenched and tempered
Temperature range: -40°C up to +200°C
Finish: painted blue

Safety factor: 4:1
Grade: 10
