

Click Ductor conductor system - general

Product information

General:

Compact, reliable and safe power supply fitted with an easy click-system, for e.g. cranes and hoisting equipment. The unique construction combines flexibility and efficiency. Click-Ductor can be used for both indoor and outdoor applications.

AKAPP Click-Ductor system has a unique concept. Based on free expansion of housing and conductors. The pre-mounted conductors are connected with convenient copper clips with clamp or screwed tightening.

The conductor housings can be connected by means of self-clamping joints, without using any tools!

Features and benefits:

- The reliable conductor system for cranes, hoists, conveyors and many other applications
- Current capacities: 50, 80, 110, 125, 160, 200, 320 and 400A
- Conductor housing available with 4, 5 or 7 conductors
- Adjustable to almost all heights
- Flexible sealing against dust, moisture and humidity
- Long tracks possible
- Easy and fast mounting
- Virtually maintenance free
