Carbon brushes and gliding shoes Click Ductor CL7

Product information

CL7-7-35/GS

Gliding shoe with wheel set for type 'GS'-collector trolleys

General:
The collector trolleys are supplied as standard with carbon brushes for 35A, positioned according to the product drawing and table.
The brushes in positions 4 and 5 are both fitted as double brushes ("twin brushes"). Twin brushes are smaller than the others and their capacity is 35A per set.
Advantages of this construction are a perfect balanced collector trolley. Gliding shoes can very easily be mounted to the collector
trolley by means of a dovetale construction. Per collector trolley 4 gliding shoes are required.

There are special gliding shoes available for high-speed applications (suffix '../GS')
