

6 in 1 Multipurpose Lubricant

Product information

General: 6 In 1 Multipurpose Lubricant is a high performance, semi-synthetic, multipurpose penetrating fluid that cleans, lubricates and preserves exceptionally well due to its unique and proprietary blend of esters and additives. 6 In 1 Multipurpose Lubricant is an Extreme Pressure and anti-wear lubricant that contains rust and corrosion inhibitors, a water displacing agent, penetration promoting additives and friction modifiers. 6 In 1 Multipurpose Lubricant is superior to any rust blaster or water displacing product on the market. Also available in aerosol.
