

Drum Lifting TVSH

Product information

Designed for lifting, handling and transporting of (oil) drums, where the drums have to stay in a laying position. Single clamp application on empty or filled drums. During lifting and transportation the centre of gravity of the drum is always below the lifting point.

Features:

- Lightweight design for easy handling in tight spaces between other drums
- Tough quality heavy duty welded shell body
- Equipped with a manual safety lock mechanism so that the clamp is locked in the open position
- Maintenance-friendly, easy to exchange parts which are available upon request

Material: Alloy steel

Marking: According to standard, CE-marked, Type, serial number, WLL, Jaw opening.

Temperature range: - 40°C up to +100°C.

Standard: EN 13155
