

pillar jib crane, articulated: PFA

Product information

Appropriate for an indoor or outdoor use, this articulated jib crane has a very reduced headroom. His first arm can rotate 180 degrees and the second 300 °. The articulated structure facilitates the movement of loads in a cluttered environment. This model is restricted to only manual rotations.

Floor fixing is effected by chemical anchors or anchor rods with foundation.

A full range of accessories is available.

Options

- Installation template + anchor rods (or base plate for chemical anchors, keeping its limitations in mind).
- Hoist power supply cable.
- Lockable main switch.
- Rotation slowing device (adaptable without welding or mechanical intervention).
- Option of a slowing device on each arm.
- Hot dip galvanizing (contact us).
- Rotation stops to weld onto the assembly, or adjustable, on 1 arm.
- Single- or multipositions rotation lock (arm 1 only)
- Outdoor use.
- Electric or manual hoist.
