

Pillar jib crane, overbraced, hollow section, 270°, movable: PFTC MOB

Product information

The jib crane PFTCmob is strictly reserved for an indoor use and built with a hollow section, PFTC allows 180° rotation. This jib crane cannot be motorized. Intended to be equipped with a manual or electric hoist, this model has a great versatility with his trolley hoist mounted on plastic rollers.

This jib crane is mounted on a movable concrete block provided. Displacement can be done by traveling crane (transport ring) or by forklift. A full range of accessories is available.
