Anchor Point ABS-Lock T/-Max

Productinformatie

Stainless steel anchor point ABS-Lock T-Max is a fall protection solution designed for clamping onto the flange of a steel girder without penetrating the surface. It is suitable for all directions of load, can be installed overhead or used as an intermediate bracket in a lifeline system. Included girder clamps made of hot-galvanised steel and all installation materials.

Force directions: Lateral and axial
Substructure: Steel
Attachment: Clamped
Application: Overhead
