

## Overview of possible examination or inspection intervals

|  | Annual inspection | Annual examination | Examination every 4 years |
|--|-------------------|--------------------|---------------------------|
| Chains and chain hardware                  | X                 |                    | X                         |
| Crane hooks                                | X                 |                    | X*)                       |
| Steel wire rope                            | X                 |                    |                           |
| Chain hardware attached to steel wire rope | X                 |                    | X                         |
| Cables                                     | X                 |                    |                           |
| Clamps                                     |                   | X                  |                           |
| Synthetic slings                           | X                 |                    |                           |
| Turnbuckles                                | X                 |                    |                           |
| Lifting magnets                            |                   | X                  |                           |
| Vacuum lifting equipment                   |                   | X                  |                           |
| Lifting beams                              | X                 |                    |                           |
| Forks for fork-lift trucks                 | X                 |                    | X                         |
| Lifting aids for fork-lift trucks          | X                 |                    |                           |
| Harnesses and lanyards                     | X                 |                    |                           |
| Hoists                                     |                   | X                  |                           |
| Winches                                    |                   | X                  |                           |
| Trolleys                                   | X                 |                    |                           |
| Hydraulics                                 |                   | X                  |                           |
| Lift table                                 |                   | X                  |                           |

\*) Only when offered separately for examination.
